HOW?

people didn't know what to do

UNTIL NOW

love your gravy
love your G-Pot

Made of Bone China to keep your gravy piping hot.
Ensure to keep my lid on at all times. Dishwasher safe or surface washable.
Treat carefully and your faithful G-Pot will last a lifetime.
No more cold gravy

Enjoy

INTRODUCING A NEW WAY
OF ENJOYING YOUR GRAVY

IN THE OLDEN DAYS...

people used to put their gravy in a gravy boat.
it used to sit on the dining table

THERE WAS A MAJOR PROBLEM!

people liked their gravy hot
optimum gravy temperature is:-
74.6° C

**WHY DID THIS CAUSE THE GRAVY
BOAT TO FINALLY SINK?**

well people were frustrated because they didn't
like luke warm gravy or that yucky skin...
it was time to do something about it.
